Class 4 Mr Brown Miss Magee Spring Term 2010

Our topic this term will answer the question:

In what way is life different for Ghanaian children to that of Osbaldwick children?

The cross curricular theme will involve work related to the children comparing our lives and the physical geography to that of people living in another country.

Additionally we will be celebrating our topic with a 'Golden moment - **FAIRTRADE FESTIVAL**' which will consist of a dance performance to parents by pupils.

Fairtrade delicacies will also be served by pupils. This will happen at the end of the term in April. Look out for further details.

You can help your child by talking about:

where the UK is on an Atlas or globe

where other countries are found

the names of the continents

locating fairtrade products in supermarkets

Class 4 will also be working out the total energy that the school uses and working out ways in which we can be more **environmentally friendly**.

We are pleased to be working alongside **experts from St Nicholas Fields** who will be supporting us in our environmental work.
